

First Edition Memoirs: Memoir Packages

First Edition offers several memoir packages. Modifications are available upon request. When reviewing price points, please remember that the average memoir takes between 80 and 100 hours to produce and the finished product will be a treasured keepsake for generations to come.

Memoir Package #1

\$4,500

This is First Edition's most popular memoir package. Historian provides full written memoir with repaired/restored photographs. Memoir is printed and bound in full-color, hardcover format by Lulu Press, North Carolina, and is delivered in a customized, one-of-a-kind display box. Package #1 provides the narrator with an attractive, professionally printed book that will be treasured as an heirloom by future generations.

Memoir Package #2

\$4,000

Historian provides full written memoir, but without accompanying photographs other than author photo for dust jacket. Memoir is printed and bound in hardcover format by Lulu Press and is delivered in a customized, one-of-a-kind display box. Package #2 is a good choice for a narrator who already has a good collection of photograph albums and is only looking to tell his or her life story narratively and preserve it in a lovely and keepsake-worthy format.

Memoir Package #3

\$2,000

This package is a good option for narrators who have wonderful stories to tell but whose cognitive abilities may no longer enable them to tell a cohesive story or reliably remember names, dates or places. Historian conducts and transcribes audio interviews, focusing on what the narrator can remember and would like to tell, and publishes them, in the original interview format, in a softcover book from Lulu Press. Since little editing, reorganization or writing is involved, First Edition can offer Package #3 at a lower price point, making it also a good choice for clients on a strict budget.
